Narrative

Brief narrative statement of facts, conditions and circumstances pertinent to the accident/incident:

*** Note: NTSB investigators traveled in support of this investigation and used data obtained from various sources to prepare this aircraft accident report. ***

On July 6, 2013, about 1128 pacific daylight time, Asiana Airlines flight 214, a Boeing 777-200ER, registration HL7742, impacted the sea wall and subsequently the runway during landing on runway 28L at San Francisco International Airport (SFO), San Francisco, California. Of the 4 flight crewmembers, 12 flight attendants, and 291 passengers, about 182 were transported to the hospital with injuries and 3 passengers were fatally injured. The airplane was destroyed by impact forces and postcrash fire. The regularly scheduled passenger flight was operating under the provisions of 14 Code of Federal Regulations Part 129 between Incheon International Airport, Seoul, South Korea, and SFO. Visual meteorological conditions prevailed at the time of the accident. Updated on Aug 7 2013 9:16AM
